# Home Page

## Search Bar:

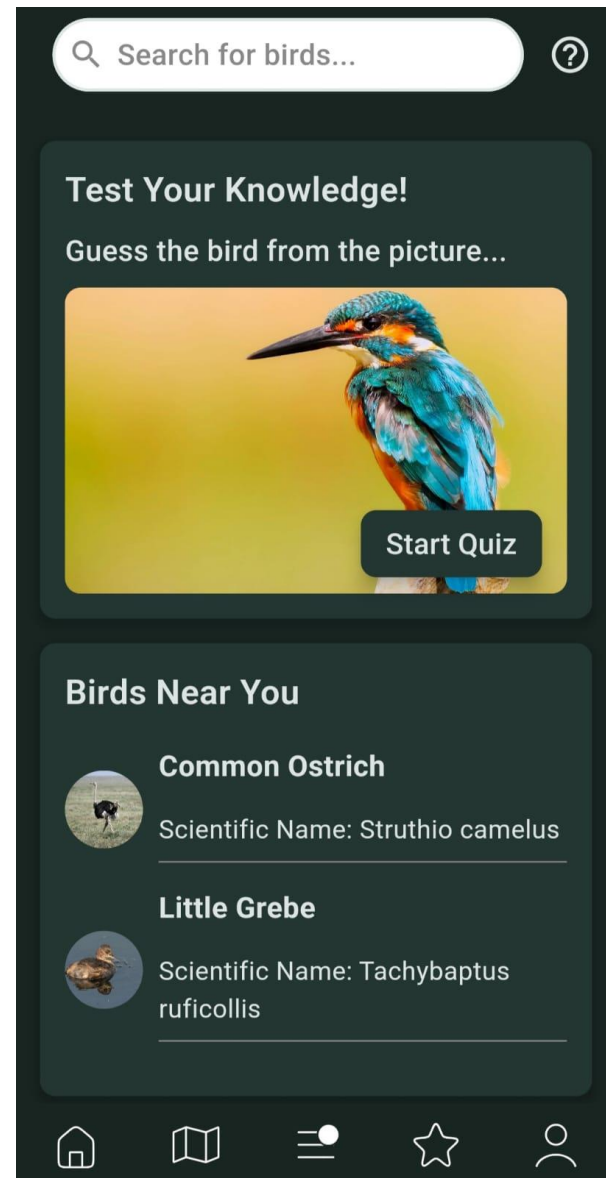

Use the search bar to find a specific bird by typing in the name of what you're looking for. You can search by Common name, Species name or Genus! Through this Bird Information page, you can also view the birds' heat map, hear what it sounds like and learn all there is to learn about it!

## Quiz:

Expand your knowledge on South African birds! Click Start Quiz and then match the bird's name to the shown picture to earn experience points!

## Birds Near You:

See all birds that are expected to be within a 9km x 9km area around you right now.

# Map/Heat Map

## Filters:

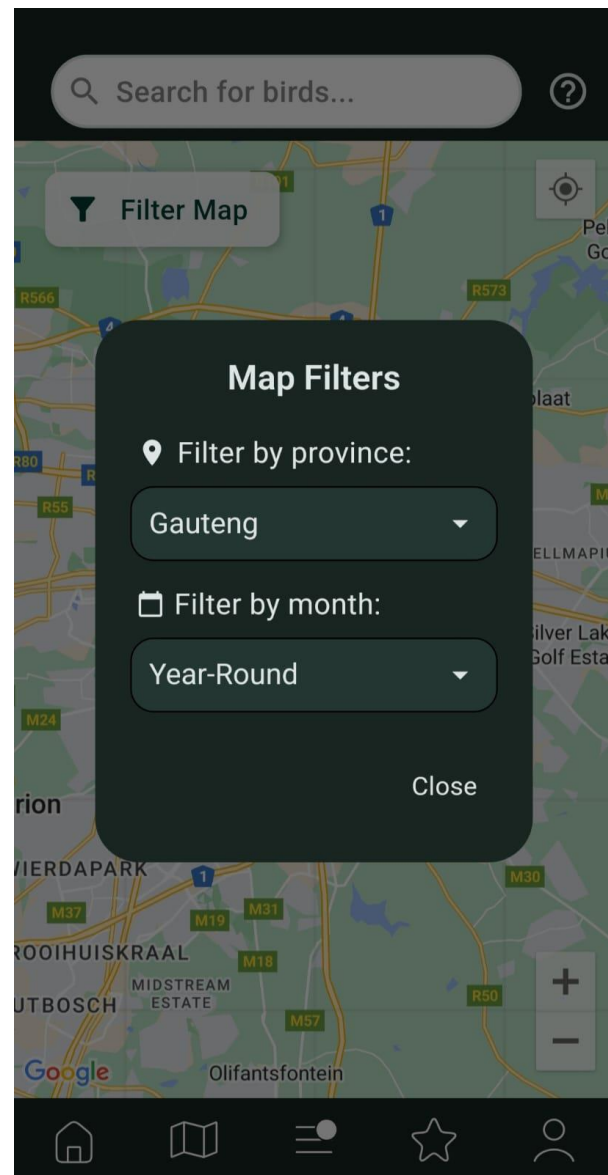

You can filter the data on the map by month or year. This allows you to make sure you can see what birds will be in the area for your next birding adventure!

## Pentad Definition:

The squares you see on the map are called pentads! They are 9km x 9km squares that define the borders of the data that shows you where all the different birds in South Africa can be seen. This data has been collected from the 70's by SABAP.

## Search Bar:

Use the search bar to find a specific bird by typing in the name of what you're looking for. You can search by Common name, Species name or Genus! Through this Bird Information page, you can also view the birds' heat map, hear what it sounds like and learn all there is to learn about it!

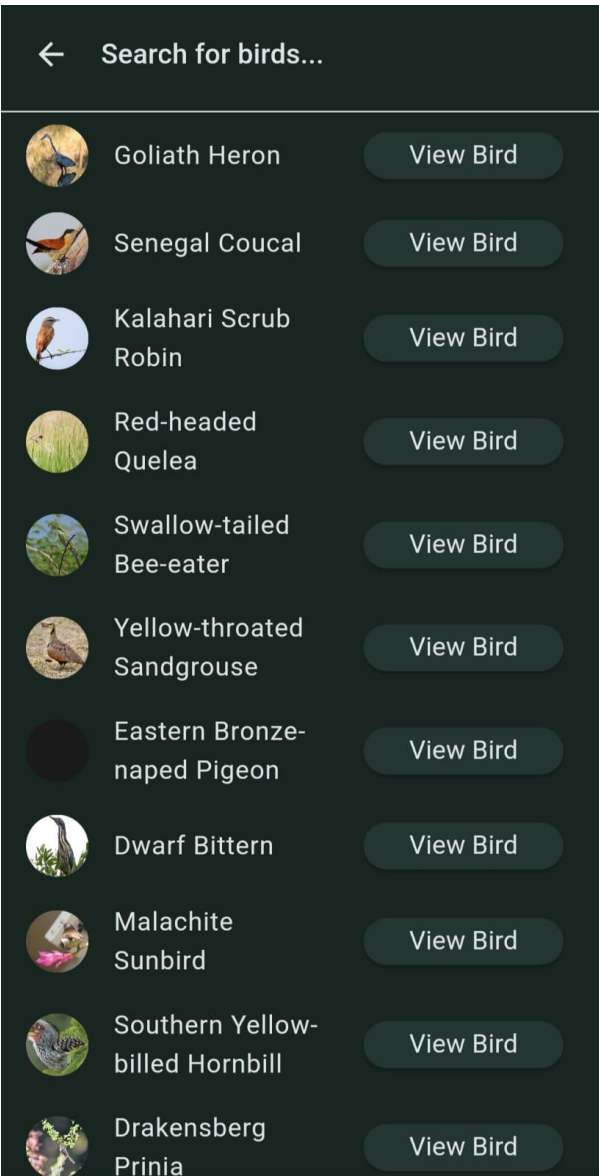

# Search Page + Bird Information Page

## Search Bar:

Use the search bar to find a specific bird by typing in the name of what you're looking for. Then click on the bird that you're looking for.

## Bird Information Page:

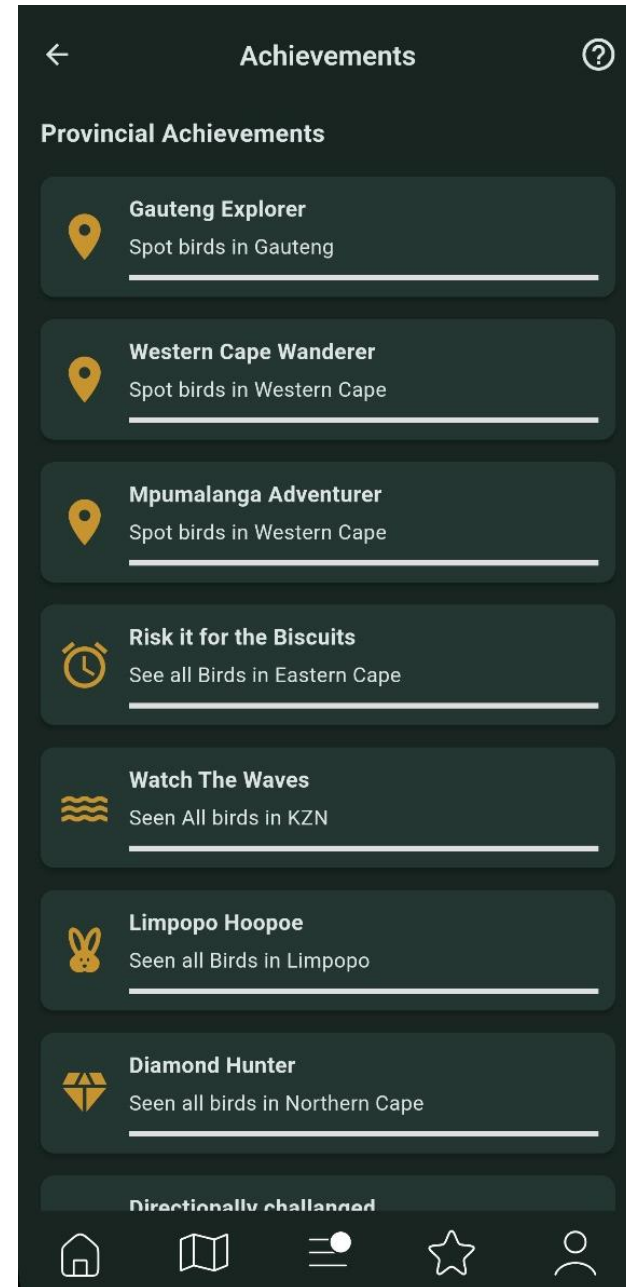

Through this Bird Information page, you can view the birds' heat map, hear what it sounds like and learn all there is to learn about it!

# Achievements Page

## Achievements:

# Profile Page

## Profile Information:

Here you can change your username and other personal information by tapping on the text boxes.

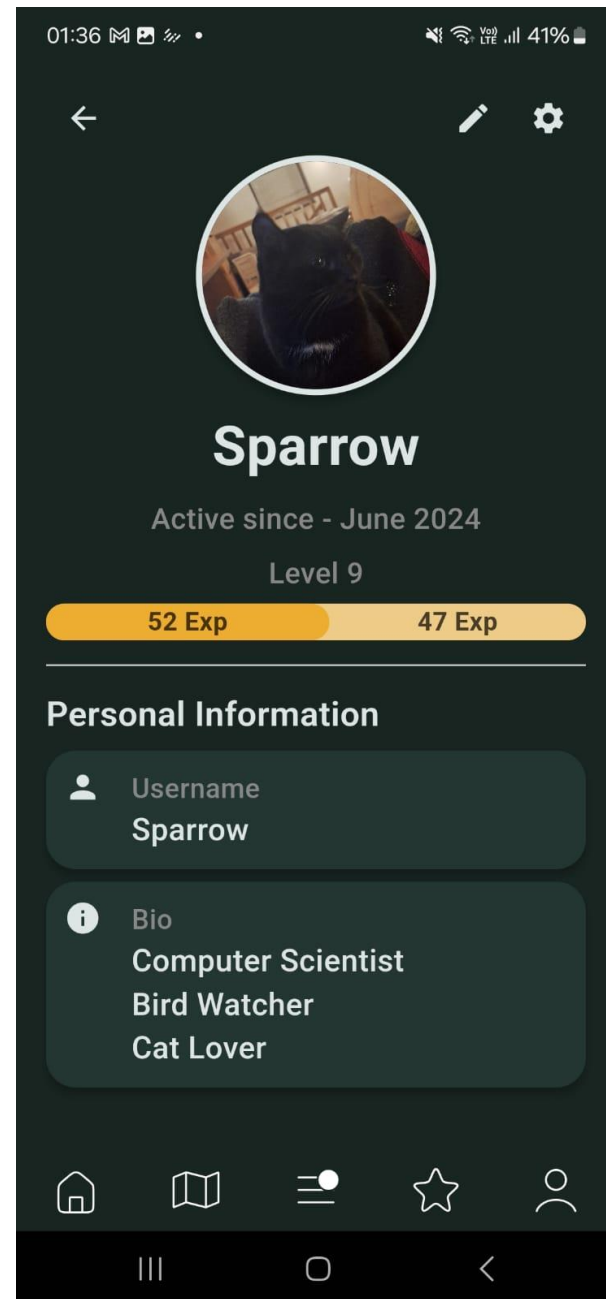

## Settings:

Click on the settings wheel icon in the top right corner.

Dark/Light mode can be changed by tapping on the appropriate icon.

Here you can also change your heat map colour pallet!

View legal documents and gain access to this lovely user manual.

# Sightings / Life list

## Life list:

All birds that you have saved to your life list will appear here and you can easily access all their information by tapping on them.

Filter the birds you've seen by name in ascending or descending order.

You can return to the home menu by tapping on the arrow in the top left corner. Import your life list from another app (.csv format only) or export it.
